## Sustainability Policy

### Sustainability Statement:

- Oxford Pipework Services Ltd. (OPS) is committed to preventing pollution and to comply with all relevant environmental legislation, regulations and other environmental requirements.
- Oxford Pipework Services Ltd. understand the need to protect our natural environment and limit the day-to-day impact that our business has on the Planet.
- Oxford Pipework Services Ltd. aim to follow and highlight good sustainability practices, this with the aim of reducing the environmental impacts of their activities, and to give something back to our community and the environment.

### Sustainability Policy:

Oxford Pipework Services Ltd. will uphold sustainability practices by:

- Ensuring they comply with all relevant environmental regulations and legislation.
- Reducing, where and if possible, the consumption of resources including energy, water, and other raw materials, and ensuring the efficient use of the resources that they do consume in the carrying out of their operations/duties.
- Ensuring consideration is given to the environmental, social, and ethical impacts of the goods and services we purchase for incorporation within their works.
- Working with our suppliers to reduce the impact of our supply chain and to encourage them to improve their sustainable and environmental practices.
- Managing waste generated from our business in line with the waste hierarchy, by; avoiding waste in the first place, this through the issuing of the correct information to enable installation on a first time basis and not having to have works redone/re-configured caused by the issuing of incorrect or misleading information. Giving priority to the minimising, reusing, recycling, recovery of waste, this with the aid of regular monitoring of the work-load together with procurement profiles of construction materials, and finally, ensuring the safe disposal of waste at the designated point.
- The Regular review of Oxford Pipework Services Ltd. practices with the aim of continually improving the impact of not only our business activities but also the impact that the industry has a whole on the environment, the local community, and wider society.
- Measuring and taking action to reduce the greenhouse gas emissions associated with our business activities.
- Supporting social and environmental projects and initiatives within our community or in wider society.

This Sustainability Statement will be reviewed on a regular basis to evaluate its continued relevance and to monitor our progress.
